Optional Anchoring Installation

- For fire-resistance performance, mounting holes are located on the back panel only.
- Rear mounting holes are designed to enhance security while minimizing impact on fire resistance.
- Disposable fire plugs are used to seal unused mounting holes for fire protection.

Installation steps are as follows:

Fire Plug Installation

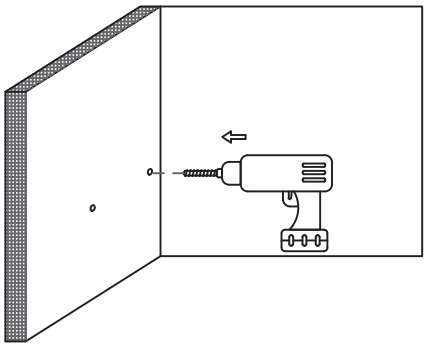

Press plug firmly into hole by hand.

Fire Plug Removal

Push out from inside using a metal screwdriver.

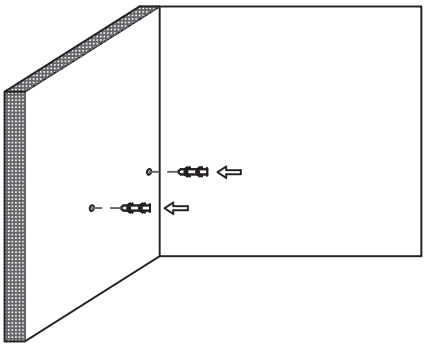

Anchoring Steps (Permanent Installation Only)

Step 1:

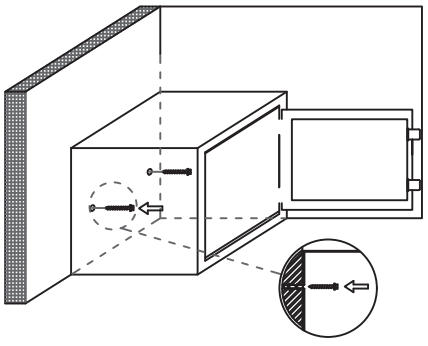

Position the safe and mark the mounting location.

Step 2:

Align the mounting hole with the floor or wall anchor point.

Step 3:

Secure the safe using appropriate anchor bolts
